

COVID-19 is still here

Getting vaccinated for the latest strain is the best way to protect yourself and your family from severe outcomes due to COVID-19.

Last respiratory illness season, over 7,000 people living on reserve were immunized for the circulating strain of COVID-19.

This season, as of November 13, 2,000 people living on reserve have been vaccinated against the current strain.

Get vaccinated.

The more of us who are protected, the better we can protect our Elders, families and community from severe illness.
